DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct filter species:

Species 1: Fig. 5.

Species 2: Fig. 6.

Species 3: Fig. 9.

Species 4: Fig. 10.

Species 5: Fig. 11.

Species 6: Fig. 13.

Species 7: Fig. 14.

Species 8: Fig. 18.

Species 9: Fig. 19.

Species 10: Fig. 22.

Species 11: Fig. 24.

Species 12: Fig. 33.

Species 13: Fig. 46.

Species 14: Fig. 53.

Species 15: Fig. 59.

Species 16: Fig. 66.

Species 17: Fig. 72.

Species 18: Fig. 73.

Art Unit: 3734

Species 19: Fig. 76.

Species 20: Fig. 81.

Species 21: Fig. 86.

The species are independent or distinct because they are structurally different.

The claims are method claims and applicant is required under 35 U.S.C. 121 to elect a single disclosed species associated with the methods claims for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, at least claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Art Unit: 3734

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants of the other inventions, or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vy Q. Bui whose telephone number is 571-272-4692. The examiner can normally be reached on Monday-Tuesday and Thursday-Friday.
